

H-Connect at Florence Nightingale Community Hospital

Staff members from Hconnect and DAACSS were pleased to be able to support carers as part of Ward 3 and Ward 5's pledge to improve carer awareness, identification and support.

Both Ward's 3 and 5 are pilot sites for the H-Connect Project which aims to improve the support and help that carers receive on their caring journey.

The Carers Pop-Up Stand was a great success, with lots of carers attending to find out more about the help and support available to them.

Hconnect and DAACSS will be continuing to support carers by offering a monthly stand in the Main Hospital Corridor at Entrance A at the Florence Nightingale Community Hospital, where there will be a whole host of leaflets and information that can help support carers within Derbyshire.

Feel free to pop along on these dates for a chat to find out more!

- 23rd September 12-2pm
- 28th October 12-2pm
- 20th November 12-2pm
- 15th December 12-2pm
